## BRIEF DESCRIPTION OF THE DRAWINGS

0005. Figure 1A depicts a front view of "Dermawear." ~~"Dermawear"~~  
~~(Fabric Shield) - as a garment to be worn during genital-to-genital~~  
~~copulation. The receptacle rim of Figure 2B is comprised of an elastic band to~~  
~~secure as seen in Figure 1A. The drawing depicts "Modified Men's Briefs."~~

0006. Figure 2B is an arrow pointing at the "Receptacle Rim."  
~~"Dermawear" (Receptacle Rim) which is a hole cut in the fabric shield with an~~  
~~elastic band to grip the base of a condom covered penis. The drawing depicts~~  
~~"Modified Men's Briefs."~~

0007. ~~Figure 3C is a representation of the different borders that the~~  
~~"Receptacle Rim" can have as a shape when designed specifically and/or solely as~~  
~~Dermawear for women.~~

Figure 3C has been removed as unnecessary to the art of "Modified Men's Briefs."

Figure 3C previously defined as different borders for the receptacle rim is now  
described as 3 loop defense strands. Figure 3C depicts loop defense strands  
simulating hair.
